The 4-Number Revenue Equation Sheet

You track leads and revenue. The leak sits in between. Four numbers show you where.

The equation

SIGN-UPS	×	SHOW-UP RATE %	×	BOOKING RATE %	×	CLOSE RATE %	=	CUSTOMERS

The six stage numbers, and where to read each one

STAGE	NUMBER	HOW TO WORK IT OUT	WHERE TO READ IT	LAST RUN	THIS RUN
1 Traffic	**Visit rate**	Page visits ÷ people reached	Your outreach tool and your page analytics		
2 Landing	**Sign-up rate**	Sign-ups ÷ page visits	Page analytics and your CRM		
3 Nurture	**Show-up rate**	Attendees ÷ sign-ups	Your session platform's attendance report		
4 Conversion	**Booking rate**	Calls booked ÷ attendees	Your booking tool or CRM		
5 Revenue	**Close rate**	Customers ÷ calls booked	Your CRM pipeline		
6 Long-term nurture	**Rebooking rate**	Calls booked from your list ÷ people on the list	Your CRM and newsletter tool		

Every Monday

My weakest number this week

Weakest against your own last run, not against a benchmark from a blog.

The one thing I change

One stage, one change: a headline, a subject line, a send time.

The log

WEEK	STAGE	WHAT I CHANGED	RESULT	KEEP IT?

Detect the weakest number. Change one thing. Re-run it and log it. Five changes at once teach you nothing.

I build the whole funnel live in a free 60-minute workshop. Save a seat →
